THE MERGEN AGREEMENT KEPT INOPERATIVE-A

REQUEST TO VACATE THE INJUNCTION REFUSED.

Justice Lawrence, in the Supreme Court,

injunction order granted at special Term, restraining Manhattan Railway Company from acting in any y under the so-called "Merger Agroement" of Novem-1881, made between the Manhattan Railway Com-y and the Metropolitan and New-York Elevated

This motion was renewed before Justice Haight,

tion order granted at special Term, restraining

for leave to reargue, and upon such rearguments." motion to vacate the injunction with \$10 costs." EXCEPTIONS TO THE PROBATE OF A WILL. EXCEPTIONS TO THE PROBATE OF A WILL.

The legal fight over the will of Eva J. Banks, of White Plains, dated May 15, 1877, is likely to be further protracted, since William M. Whelpley and Louisa M. Craft, who contested the probate, have given notice of an appeal to the General Term of the Supreme Court of the Second Department, from the decree of Surrogate Coffin, of Westonester County, admitting it to probate. Benjamin G. Hitchings, proponent of the will of 1874 and a contestant of the will of 1877, has taken a number of exceptions to Surrogate Coffin's findings of fact in the matter, as follows: Tont Eva J. Banks declared that the paper so subscribed was her last will and testament: the matter, as follows: That Eva J. Banks declared that the paper so subscribed was her last will and testament; that the paper was published and attested as the will, in conformity to the Statutes; that at the time of the execution of the will she was of sound mind; that the execution was her free act, and that the paper dated March 10, 1874, propounded as the last will and testament of Eva J. Banks, and the papers purporting to be codicils to the will, dated respectively July 18, 1874, and November 25, 1875, were revoked and annulled by the alteged will of May 15, 1877.

A SUIT AGAINST VILLAGE OFFICIALS. William F. Koch, a resident of New-Rochelle, has begun an action in the Supreme Court against the village authorities to recover \$10,000 for alleged injuries received to his person by reason of falling on ice in one of the public streets through neglect of the author-ities to remove the same. At a meeting of the Board of Trustees, President Banks was unanimously authorized to employ counsel to defend the village in the suit.

CIVIL NOTES. A suit for absolute divorce has been begun by Mrs. Anna B. Kendall against Lyman H. Kendall in the Supreme Court. A referee was appointed yesterday. The parties were married in Maryland in 1866, and have two children.

Sarah S. Rachmiel sues Alexander Rachmiel in the Supreme Court for partial divorce, alleging cruel and abusive treatment on the part of her husband.

DIFFERING ON A QUESTION OF SEWERS.

Sewers were urgently needed in Paterson, J., and the construction of some of those projected had been pronounced by the Board of Health of the city to be imperatively necessary. The Board of Aldermen on Monday last unanimously awarded about \$21,000 worth of contracts for the building of new sewers. Great surprise was caused throughout the city Thursday by the announcement that Mayor Barnert had decided to refuse to sign the contracts, and had called a special meeting of the Board for that evening to consider the matter. The Aldermen refused to recede from their position and adjourned without taking action.

DEATH OF A CENTENARIAN.

SCRANTON, Penn., Aug. 10 .- Mrs. Mary Lynch died in this city yesterday in her 110th year. She was bernin Sussex County, N. Y., in March, 1774, her father, Jacob Bunsick, serving in the Revolution and ber hus-She had eight children, four of whom are living, the youngest being seventy-five years of age. She retained her mental laculties and used no glasses, and refused the use of a cane when walking. Her health has always been good, but three days before death she refused to

CONDITION OF THE CHICAGO MARKETS.

WHEAT RISES AND CORN, PORK AND LARD BECOME LOWER IN PRICE. [BY TELEGRAPH TO THE TRIBUNE.]

CHICAGO, Aug. 10 .- If this market had not been through the lard panie and been made proof against ordinary financial disturbances by its own extraordinary experience, the stoppage of two banks at Indianapolis would have turned things upside down to-day. Indianapolis trades here proportionately on a larger scale than either Cincinnati or St. Louis. Many lots of provisions are held there now, and half the dealers in the place are interested more or less in the prices of produce at Chicago; yet while the bank failures started a cloud of rumors and gave the gosslps much to cularge upon, provisions were depressed not at all alarmingly, and wheat actually increased in price. gentleman whose regations with Indianapolis are very close, and whose facilities for getting correct information is better probably than anybody else here, said that he had a dispatch late in the afternoon which said that the Indianapolis packers had borrowed no money of the insolvent banks, had withdrawn their accounts, and that consequently none of the Indiana product would come on the market simply because of these suspensions.

It was not extraordinary that pork should drop 25 cents, lard 10, and ribs 20 cents. It has been for a long while an open secret that all the Indiana speculators los an open secret that all the Indiana specific for lost enormously through McGeoch's failure to corner lard, and that the local packers were loaded with property that had greatly depreciated in value. It was naturally feared that the banks had lost money by the pork specialisters, and that there would be much produce to sell that the form that the second of the seco instantly for what it would bring. At night the prices of provisions had not recovered much, neither had the Seeling of the crowd improved greatly, but the packers received word that the "Bill" English clique would certainly take hold of the First National, that it would be opened in the morning better than ever, and that, the Indianapolis pork product was not to be sacrificed. If there is no new disaster to-morrow (not an un-likely thing, however, for they are becoming un-Pleasantly common), provisions are likely to begin to re cover the ground lost during the past twenty-fou ours. The supply and demand have not changed

hours. The supply and demand have not changed so as to encourage selling. The shipments to-day were very heavy and the receipts of hogs continued small. August pork stopped at \$12 72½ and September at \$312.85; August lard at \$8.35 and September at \$8.37½. August ribs closed at \$6.80.

The relation between the buyer and the seller of cash wheat was evidently very notably changed within the past few days. The main who had it to sell a few days go crept about from office to office with the subservient air of an "ole clo" main. To-day he was creet, independent and reliant. Charters were made for the shipment of 180,000 bushels. The dispatches from New-York said that No. 2 spring wheat was selling at \$1.13 and above. The cables were firmer and announced ligher markets. These circumstances partly accounted for the change in the relationship between the wheat "bulls" and "bears." The electrical condition of the local crowd, however, had more than all to do with it. Lester started in, it is believed, to cover some short wheat and several lesser shorts followed. The "bulls" soon began to feel that their loads were becoming a little more buoyant, September wheat lights at \$1.05%. Those figures are ½2% cents better than last signi's. A rumor from New-York said that the "Kent growd" had sold its wheat for October and September wheat lights actually accounted the morth had been a disappointment and they said that the action of the market during the first week of the month had been a disappointment and they said then the action of the market during the first week of the month had been a disappointment and they said then the while with the local crowd is rightfully suspicious of Kent. It is not at all likely that he will ship much what out, if any, nor likely that he will ship much wheat out, if any, nor likely that he will ship much wheat while we that it is to move up fast or atcadily. A sharp up-turn would be pretty sure to king into the market Kent's holdings and would be

likely to send prices down temporarily. Within the past few days the shoppers like Kershaw have been doing a big business and their sales will begin to show up very soon on shipments. The price of corn was lower to-day, August closing at 50% and September at 50%. The shipments were again very large, 350,000 busiels. At a late hour the news was received in the alley that the First National Bank at Indianapolis had resumed business. Most of the traders and gone home but the news was cheering and strengthening. It will be pretty certain to make the markets strong and higher in the morning.

FRIDAY, Aug. 10-P. M.

A steady decline in prices for stocks to-day, which hardly was interrupted by any material reaction, occasioned a large improvement in the volume of business done. The recorded transactions amount to 436,000 shares. The causes affecting the market were not new. But the development of old reasons led to a renewal of a disposition to liquidate, and hence stocks were pressed upon a market that lacked a corresponding demand. There is little or no evidence, however, that the leading speculative holders were seliers of stock. On the contrary, prices declined in the face of an evident support from that class of speculators. The day is notable for a general and important decline in all the leading securities, and it is more marked in stocks that are known to be cliqued than it is in those which are supposed to be scattered among a large number of holders. The discovery of the large indebtedness thvolved in the Eastern failures, the bank troubles at the West, and the reports of trouble near at home were prime factors in a stock market which includes, propably, a larger speculative holding than was ever known before. The market closed quiet but weak, at near the lowest prices

of the day. A moderate business was done in Government bonds, and prices were steady, although the bids for the \$128 were 18 lower. Annexed are the closing

In State bonds there were small sales of Louisiana consols at 66, and of Missouri 6s 1887 at 10712. There is a demand, outside of the board, for Arkansas 7s to the Fort Smith Railroad at figures better than the nominal quotation made at the Exchange. There were no transactions in city bank stocks,

The business done in railroad and miscellaneous

bonds was unusually small. In connection with the decline in the price of Eric shares, a drive was made at the company's second consolidated 6s, and they declined from 941s to 93@9312. Rome, Watertown and Ogdensburg 5s were off 1 per cent at 66. West Shore and Buffalo 5s were sold down 5s to 7314, and ended at 7312; and New-York, Chicago and St. Louis first 6s wers steady at 1001a. East Tennessee, Virginia and Georgia incomes declined 1 per cent to 33, and Richmond and Danville debentures were steady at 63%. Texas and Pacific

ending to-night includes receipts of \$9,277.089 and payments of \$9,089,892 making an apparent gain to its balance of \$187,197, and leaving its balance at\$124,449.20,against \$124,167,723 August 3. But after deducting from the payments \$1,446,000 and from the receipts \$20,000 for items which represent exchanges and transfers, the Treasury actually gained \$1,613,197. To-day's transactions covere d: Receipts, \$895,634; payments, \$55,282; currency balance, \$6,684,231; coin balance, \$117,660,684. The local money market is still abund antity supplied with loanable capital on call, and the rates to-day were 2@1½ per cent, after exceptional loans at 2½ per cent. The domestic exchanges on New-York are not materially changed, but at the West rates are easier on the bank troubles in that section, and it is not impossible that in a day or two rates at Chicago and St. Louis may be down to points which will draw money from here.

The Clearing House statement to-day was as follows: Exchanges, \$100,213,680; balances, \$3,388,294.

The United States Treasury at Washington to-day lows: Exchanges, \$100,213,680; balances, \$3,388,294.

The United States Treasury at Washington to-day received \$365,000 National bank notes for redemption. The customs receipts were \$1,027,367 and the internal revenue receipts \$306,547.

The foreign exchanges present no new features. The markets are strong at unchanged quotations for business as follows: Bankers' bills, \$483½ and \$487½ for long and short respectively; 5.22¼ and 5.19 for francs; 94½ and 95 for reachmarks; 3978 and 40½ for guiders.

In London British consols were unchanged at 99 15-16 for money, and were 1-16 higher at 100½ for account, United States 4s were steady at 122 and the 4½ 1-16 lower at 115½. American railways were irregular, but the changes accurately reflected yesterday's changes in the home markets. Erie was down from 34% to 339-16 and Central and Hudson was up from 118½ to 119 @11878. At Paris, French 3 per cents declined from 80.50 to 80.15, and sight exchange on London was higher at 25.32 trancs to the £.

The gross earnings of the following railroads are reported: CHICAGO, MILWAUKEE AND ST. PAUL. THE PETROLEUM MARKET. NEW-YORK, Aug. 10. The monthly report of the United Pipe Lines was published to-day. It shows an increase (all the figures being given in barreis) of 374,152 in gross stocks, an increase of 35,729 in sediment and surplus account, and an increase in net stocks of 339,423. This increase in net stocks is the largest for any single month since February, when the increase was 567,779 barrels. The receipts of oil in July show a decline of 125,020 barrels, and the deliveries a decline of 169,178 barrels. The exess of receipts over deliveries is 44,158 barrels greater than in the mouth previous. In every respect but one the July report compares unfavorably with that of June. The exception is in the oil that has been put into a marketable shape—that is, the pipe line certificates issued and the credits remaining to producers on the books of the company. There is shown a decrease of 717,725 barrels in the certificates outstanding and a consequent increase of 1,057,148 in the credit balances. Oil that was taken from the United Pipe Lines has been returned to their custody to the extent of over 700,000 barrels.

The official figures	of the Unite	el Pipe Line	k (given in
